Efrata Negatu

My name is Efrata Negatu, I was born and grown up in *Robit* Kebele and Wuchale town respectively. I attended my first and second cycle primary school education at Yesma Negus Wuchale primary schools respectively. My mother has contributed a lot to help me realize my dream. She has been working hard as a daily laborer to meet my needs and grant my Schooling. However, she was seriously sick when I promoted to 9th grade. As a result, I had no any hope or desire to continue my study. At this difficult time, God sent me an organization named IFSO.

I was one of the lucky girls to get an opportunity of being selected as beneficiaries of Girls Hostel established by IFSO in Wuchale town. As the Hostel beneficiary, I was provided with all necessities that enabled me attend my study without wiring about living cost matters.

I took the 12th grade national exam at the end of 2015/2016 academic year and scored an average of 440 points which made me eligible to join university education, accordingly, the Ministry of Education has assigned me at Addis Ababa University to study computational science..
I would like to thank all the professionals who are working at IFSO. They were very friendly and supportive. They even facilitated to us to have tutorials in some subjects we have difficulties. We also thank our foster mother who is supported as day and night.

I also would like to thank the founder and executive director of IFSO for her regular follow up and support coming from Addis to advise and encourage us. I would like also to thank all the professionals who frequently come from CIFA to provide us their valuable professional advice and support.

Last but not least, I humbly request IFSO to continue its valuable support till I complete my university study because my parents are very poor to support me.
