

Lidiya Zeleke

I was born and grown up in 012 Kebele. I attended my primary full cycle study at Abet from grade 1st -8th grade. Then I went to Wuchale 17th Secondary school and completed my 9th and 10th grade. Upon promoting to 11th grade, I got a chance to join IFSO's girls' hostel. This organization has done a lot to grant me a better future. I have learned a lot from the Staff of IFSO. For example, I learned to love and cooperate with others. I learned also what I should do when I join university and how to tackle difficulties in life.

The organization has served as a base not only for me but also for others 29 girls who were all in difficult condition like that of me.

The organization has been supporting us because we all were in poor economical status with good interest to study. Therefore, I hope that it will continue supporting us when we join university.

I took my university entrance exam at the end of 2015/2016 academic year and scored an average result of 391 points. Accordingly, I have been assigned at Axum University (Tigray Region) to study Business and Economics.

I would like to thank IFSO and our sponsors for their kind support which contributed a lot to our success in our study.
