

Meklit Teferra

My name is Meklit Teferra. I was born in Ambassel Woreda, 012 kebele(*Milawa*). I completed by primary school from (1st to 8th grade). Then, I attended my secondary school at Wuchale 17 Secondary and Preparatory School. After I promoted to 10th grade, however, considering my critical economic problem, IFSO gave me a chance to join the Hostel in a place of dropout beneficiaries.

Therefore, the organization has provided me food, shelter as well as material provision until I completed 12th grade. If it was not for IFSO's all rounded support, I would not be able to complete my study.

I took the 12th grade national exam at the end of 2015/2016 and scored an average of 399 points which made me eligible to join university education. Accordingly, I have been assigned at Addis Ababa University to study in the field of computational science.

I thank IFSO for all the support it has provided me. I also request the organization to continue its usual support till I complete my study.
