

Meseret Ayalew

My name is Meseret Ayalew, I was born in Ambasel woreda, 013 kebele (*Kuashat*) and grown up in a small town called *Wergessa*, 15 kilometers away from Wuchale town. I completed my primary education (from 1st up to 8th grade) in *Wergessa* primary school. Then, I went to Wuchale to attend my Secondary school. But, I was in a disparate condition because I had no one to support me to continue my secondary school.

At this point in time, considering my families poor economic situation, I got the opportunity to be selected as one of IFSO's Girls Hostel. Accordingly, I became fortunate to receive all rounded support form IFSO and its partner CIFA which enabled me to focus on my study and achieve good academic results.

I took the 12th grade national exam at the end of 2015/2016 academic year and scored an average of 409 points which made me eligible to join university education. Now, I have been assigned at Addis Ababa University to study computational science.

I thank all the employees who work in IFSO and our sponsors for their kind support.

I would like also to request the organization to continue its support until I complete my university study.
